

WHILE WE'RE FLATTERED TO BE  
SOUTH JERSEY'S ONLY HOSPITAL TO  
WIN THE SILVER GOVERNOR'S AWARD,  
THE SEAL OF APPROVAL THAT  
MATTERS MOST TO US, IS HERS.

Virtua Health is honored to receive the Quality New Jersey Silver Governor's Award for Performance Excellence for 2006. It's the highest and most respected state-based designation of quality an organization can receive for excellence in performance, leadership and service. And it's a level of distinction that no other hospital in the region achieved this year.

The Governor's Award recognizes outstanding organizational practices, based on the same criteria as the prestigious Malcolm Baldrige National Quality Award, the nation's highest award for quality.

We're particularly proud of this honor, because our ultimate goal is making every Virtua patient experience the best it can be. Virtua Health serves the entire Delaware Valley with 4 hospitals and 18 outpatient centers across South Jersey.
