**"Back to work within weeks."**

## The Virtua Joint Replacement Institute

Knee pain can keep you from doing what you love — or from doing your job. Visit the Virtua Joint Replacement Institute — the Institute of "I got my life back." We're national pioneers in minimally invasive joint replacement surgery. Unlike other options, we leave your tendons intact, so you recover far faster. In fact many patients go home the same day. Get back to doing what you love. Visit us online to learn more and read real patient stories. Or call us at **855-VIRTUA-3**.
