

Visiting Hours

Virtua Hospitals
2 to 6 p.m.

**Neonatal Intensive Care Unit/
Special Care Nursery**
10 a.m. to 10 p.m.

Behavioral Health Unit
6 to 7 p.m.

For the health and safety of our patients and their families as well as our staff and the communities we serve, general visitation is currently limited to one visitor at a time for each patient unless the patient is a minor, in which case the pediatric patient may have both parents or guardians visit. Additional exceptions include:

Patients

With disabilities such as sensory impairment, developmental, or cognitive impairments or disability; Patients at end of life

Labor and Delivery

One visitor/support person may accompany laboring woman; Must be same visitor/support person throughout hospital stay; Doula will be considered part of the patient's care team and temperature check required

High-Risk Obstetrics

Patients admitted for induction of labor or scheduled C-section may be accompanied by one support person; All other persons follow visiting restrictions of the main hospital

Mother/Baby Unit

One designated visitor — the same individual from Labor and Delivery

Neonatal Intensive Care Unit/Special Care Nursery

Visiting hours are from 10 a.m. to 10 p.m. for the two approved visitors (mother and care partner)

Emergency Department

Following screening and temperature check, one support person/visitor may accompany the patient and remain in the treatment area with the patient; In order to preserve privacy or social distancing, visitors may be asked to relocate to designated waiting areas or to return to their vehicles

Behavioral Health Unit (Virtua Memorial Hospital and Virtua Willingboro Hospital)

Following screening and temperature check one support person/visitor is permitted; Visiting hours are from 6 to 7 p.m. daily and by appointment only

Children under the age of 18 are not permitted to visit.

Hospital patients in isolation: Visitation is not permitted for patients who are positive for COVID-19 or under investigation for COVID-19; *Exceptions may be granted in cases of patient at end of life.
