## Download Citrix Receiver for Android
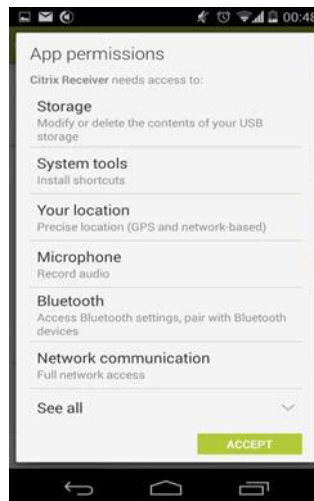

1. **It is mandatory to register for Entrust (Dual Authentication) in order to access Citrix. If you have not registered yet, please go to Virtua.org and go to "For Employees" for instructions.**

2. **Open the Google play store and then tap search.**

3. Search for Citrix Receiver and then tap **INSTALL**.
4. **Accept** the agreement

5. **When the installation is complete, open Receiver and then enter the Server or email address, which is https://citrix.virtua.org followed by your Network ID, Network Password and Domain, which is virtua.org**

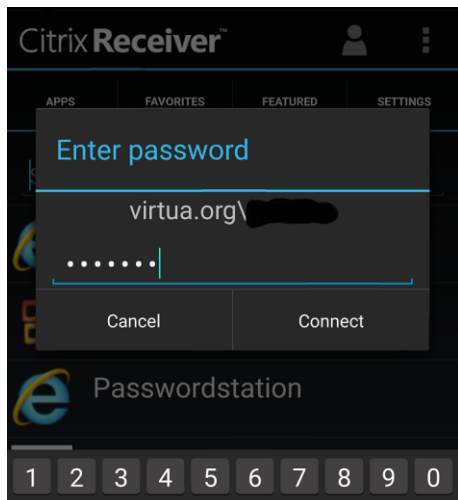

6. **Your app will load your published icons.**

7. **At this point you will be prompted to use Entrust (our Dual authentication method)**

8. Once you click the app you want to run you will be prompted for network credentials.

9. The next step you will prompted for a Token.

10. The app you selected app will now launch...
